### Description

Vision This model features the Samurai Plate Hull, which features a raised sheer line (swept bow) and also incorporates our reverse chine. This streamline hull has been designed carefully to achieve the best performance possible. The 5083 Plate bottom with 50mm capped keel make this tougher than the average alloy boat. Testing this model was a unique experience as it sliced through the waves, due to the sharper entry improving the ride. The Vision is a traditional centre console with the ability to fit the optional T Top.

As a fishing platform the Vision gives 360 fish-ability; a great platform for trolling plastics or bottom bashing but is also at home casting lures for barramundi or mangrove jack. Available in various sizes, so take a look over the listed specification and features for a good appreciation of this model. Navigator The Navigator features our new Adrenalin hull and designed for the fisherman, this model is standard unpainted, however paint is always an option, and fitted with just the necessary features to keep the cockpit open for ease of movement around the boat. An ideal model for fishing, crabbing or prawning, your opinions are endless. A seat / storage box is located behind the console for seating needs; this model also has a motor well and wide side decks. An anchor well & front bollard is positioned in the foredeck, plus side pockets for storage, and a rear step and rail for easy access, with more listed in our features section of this For all our Centre Console boat models with full details, sizes and options click [here](#)
