Description

GREAT RIDE AND IS STABLE AT RESTThe popular Stessl Apache range of boats are now available in a broad range of models from 4.2m to 5.2m designed with fisherman in mind they are built to suit the variety of Australian waterways that we fish in . Deep sides combined with a beamy hull with a reverse chine hull means the Apache has a great ride and is stable at rest. We have focused on maximising the fishing space -plenty of internal volume with ample storage room in side pockets and under the casting deck, fully welded side decks to fit rod holders, a checker plate foredeck with an aluminium anchor well, all go towards providing an uncluttered fishing platform. There are an extensive range of options are available to customise your Apache – please discuss your requirements with your local friendly dealership.Built to suit the variety of Australian waterways that we fish in.Deep sides combined with a beamy hull with a reverse chine hull.
