Description

Yamaha T60LB & T60XB High Thrust 60 horsepower 4-stroke outboards for sale at Sunshine Coast Yamaha! The high-thrust FT60 Yamaha Outboard has been specifically designed to provide the extra grunt when you need to move big loads such as sailboats and heavy pontoons.

Utilising a dual-thrust design the FT60 produces twice the thrust of comparable two-strokes within the 2,000 to 3,000 RPM range, while delivering Yamaha's legendary reliability, durability, and efficiency that Yamaha Outboards are renown for.

The key mechanical difference between the FT60 and the standard four-stroke platform is the use of a higher 2.33:1 gear ratio. This allows the FT60 to spin a much larger propeller, generating more power to the water and resulting in less slippage.

The FT60 comes standard with Yamaha's patented Dual Thrust propeller that provides maximum traction in both forward and reverse, by re-routing the exhaust in the opposite direction when in reverse. Available in:

- Multifunctional tiller handle (Long or Extra Long Shaft)
- Remote mechanical forward steer (Long or Extra Long Shaft)

Specifications:

- Engine Type 4-Stroke, SOHC In-line 4
- Bore x Stroke (mm) 65 x 75
- Fuel Tank Capacity (l)
- Displacement (cc) 996.0
- Recommended Maximum RPM: 5000-6000
- Fuel Management: EFI
- Ignition: TCI
- OEDA Emission Rating: 3
- Lubrication System: Wet-sump
- Alternator Output: 12V - 16A with Rectifier Regulator
- Gear Ratio: 2.33 : 1
- Starter System: Electric
- Operation Method: Mechanical control
- Trim and Tilt Method: Power Trim & Tilt
- Digital Gauges: Optional
- Command Link Gauges: Optional
- Transom Height (mm [inch]) L: 530 [20.9] | X: 644 [25.4]
- Dry Weight (kg) L: 119 | X: 122
