Description

The 2021 FX Limited SVHO is the premium model in our extensive WaveRunner line-up. This craft not only looks exceptional, but performs to a level unmatched by any other personal watercraft in the market.

Pull the throttle and prepare yourself. Fueled by a radical Super Vortex High Output engine, this potent powerplant flexes its muscles with more power, torque and displacement than any WaveRunner personal watercraft in history. The NanoXcel2® hull and deck is over 50kgs lighter than traditional hulls, for a ride that's extremely agile and exciting. Upgraded performance components keep this machine hooked up and glued to the water.

The innovation continues with an industry first 4.3 inch colour LCD touch screen display which provides customisable information at your fingertips, whilst the multi-mount system gives you the ability to mount your favourite third-party digital accessories to improve your on-water experience. This craft comes with four pull-up cleats giving you more flexibility when tying up to a dock or other craft.

Make no sacrifices. The flagship 2021 FX Limited SVHO delivers an incomparable ownership experience, delivering powerful, one-of-a-kind performance that will change the way you experience the water.
